VR Glacier Experience

MEETINGS & INCENTIVES

The VR Glacier Experience teaches visitors about the connections between climate change, glacier development and water balance. The exhibition lets you experience how climate change is affecting the Morteratsch Glacier and other aspects of the local environment through virtual reality. It makes a great free-time activity for events held on Diavolezza and is also great for school class trips. The visitor centre has a state-of-the-art seminar room and excellent, modern infrastructure. The room is ideal for training seminars, meetings and school classes.

Room capacities	Size	Banquet	Seminar	Theatre	Suitable for
VR	130 m ²	-	-	-	events, aperitifs
